## Still Using Timber in Shearing Sheds? There's a Better Way.

Across Australia, farmers and shed builders are moving away from treated hardwood slats and embracing Fibreglass Reinforced Plastic (FRP) Mesh. Why? Because it solves real problems in

Feature	TIMBER Treated Hardwood	FRP Mesh PG-12319-CGS9 (Type 9 Grit)
Availability	Ongoing timber shortages.	In Stock, Ready to Ship.
Cleaning	Gaps clog with wool and manure.	Easy hose through.
Animal Safety	Nails, lifting floorboards, splinters.	No nails, non-slip surface, barefoot safe.
Maintenance	Warps, rots, needs replacing.	UV-resistant, corrosion-proof, low-maintenance.
Installation	Heavy, requires skilled handling.	Lightweight, easy to cut, easy install.

## What Makes Structural FRP's PG-12319CGS9 Preferred by Shed Builders?

- Charcoal Grey Super-Fine Grit (Type 9): Engineered for agricultural uses.
- Low stick surface: Wool and dags don't cling or clog.
- MiniMesh profile (23mm thick, 19mm aperture) for safe, sturdy footing.
- Lightweight, easy to lift for periodic cleanouts underneath.

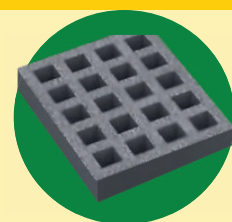

## Why Should You Make the Switch?

- **Shed Builders & Renovators:** Impress your clients and win more jobs by offering a better, longer-lasting flooring solution.
